## PRODUCT DESIGN, FED & BRAND MANAGEMENT

I'm a product designer specializing in UX, UI, front-end development, brand identity, and multimedia design. With my skills and expertise, I create visually appealing designs that align with the needs of my clients. My portfolio showcases a variety of projects that highlight my ability to bring innovation and creativity to my work.

## 2021 - PRESENT / NUTUN / UX, UI & FRONT END DEVELOPER

At present, I am the head of UX, UI and FED in the Data Science department, where we have created and oversee several fintech web-based products. Our portfolio includes a digital debt collection system that is available for white-labeling and is designed to meet the needs of international clients, particularly those in the telecommunications and energy industries
